An Email About My Dream Job

Lesson 33
Read for Detail

- Listen and review the email we learned last time.

▶ An Email About My Dream Job

Dear Professor Lee,

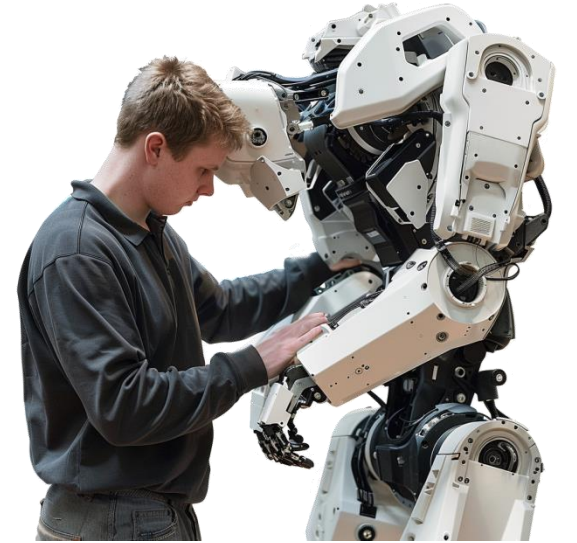

I am writing this email in response to your inquiry about my dream job, the reasons behind my aspiration, and the role model I admire in that particular career.

My interest was sparked by your curiosity, and I am eager to exchange ideas with you.

LISTEN AND REVIEW

- ▶ When asked about my dream job, I **envision** myself working as a software engineer in the field of **artificial intelligence**. Specifically, I am interested in developing intelligent machines that help us solve complex problems. This profession combines my passion for technology, mathematics, and **innovation**, making it an ideal fit for my skills and interests.

- ▶ My aspiration to pursue this dream job is grounded in several reasons. Firstly, the high demand for intelligent systems across various industries offers ample opportunities. Secondly, I am **fascinated** by the challenge of creating machines capable of learning, adapting, and replicating human intelligence. Lastly, I firmly believe that my work in this field has the potential to contribute to the societal advancement of human life.

LISTEN AND REVIEW

- ▶ As for my role model in this career, I admire Elon Musk. Musk's vision for transportation and energy industries is truly inspiring. His innovative spirit and commitment to **sustainable** development serve as an inspiration for me. His achievements not only demonstrate the power of technology, but also highlight the importance of responsible **entrepreneurship** for human well-being.
- ▶ Thank you for initiating this meaningful conversation. I look forward to sharing more of my thoughts and experiences with you in the future.

Best regards,
Daniel

- **Read paragraph 1 and answer:**

Why did Daniel write this email?

- A** to inquire about Professor Lee's job
- B** to exchange ideas with Professor Lee
- C** to respond to Professor Lee's inquiries
- D** to talk about his dream job

Paragraph 1

Dear Professor Lee,
I am writing this email in response to your inquiry about my dream job, the reasons behind my aspiration, and the role model I admire in that particular career. My interest was sparked by your curiosity, and I am eager to exchange ideas with you.

■ **Read paragraph 2 and answer:**

Why does Daniel think that being a software engineer is an ideal job for him?

- A** He has interests in it.
- B** It combines his different passions.
- C** He envisions himself working like that.
- D** Intelligent machines help solve problems.

Paragraph 2

When asked about my dream job, I envision myself working as a software engineer in the field of artificial intelligence. Specifically, I am interested in developing intelligent machines that help us solve complex problems. This profession combines my passion for technology, mathematics, and innovation, making it an ideal fit for my skills and interests.

- **Read paragraph 3 and answer.**

Which one is **NOT** the reason for Daniel to pursue his dream job?

- A** There will be ample opportunities for him.
