

## WEBSITES

How often do you use the internet?  
What sites do you usually browse?

### DEFINITION

A **website** is a place on the Internet where information is available about a particular subject, organization, etc. There are several different types of websites. Some popular ones are Google, Yahoo!, Facebook, Twitter, YouTube, Amazon, etc.

### LANGUAGE POINTS

Verbs we can use with websites:

visit – to go to a site ; to use a website

Example: I rarely visit Myspace these days. It has become an unpopular site.

update – to post something new on a social networking site, or to a change profile picture, etc.

Example: She updates her status on Facebook from time to time.

upload - to send files, pictures or programs on a website

Example: It takes time to upload files, pictures or programs if the Internet connection is very slow.

look up – to find pieces of information on a website

Example: I don't know what it looks like so I need to look it up on the Internet.

browse – to look at websites on the Internet

Example: Mobile phones nowadays can let users browse the Web.
