

A. Vocab Review**B. TOEIC® Part 4 Short Talks**

In Part 4, there are ten talks. Before each of the talks, there is an introductory statement. It will tell you what kind of talk you are going to hear (e.g. Questions 71 through 73 refer to the following telephone message). So listen carefully.

Then you will hear the talk, followed by the three questions without the answer choices, with eight-second pauses between each question. You do not have to wait to hear the questions to answer them. Begin answering as soon as the talk is over and use the spare time to preview the next three questions in your test book.
